

JAHID HASAN

Software Quality Assurance Engineer

H-44, R-14, Nikunjo, Uttara, Dhaka-1230, Bangladesh • +880 1643-848170 • iubat.jahid@gmail.com

PROFESSIONAL SUMMARY

Software Quality Assurance Engineer with 3+ years testing React/Next.js web applications across telecom, e-commerce, ticketing and SaaS domains. Strong in test design, functional and regression testing, API validation and defect management, with automation in Playwright (JavaScript) using the Page Object Model. Acts as QA focal point across client projects.

PROFESSIONAL EXPERIENCE

Software Quality Assurance Engineer

2023 – Present

Softwind Tech Ltd • Dhaka, Bangladesh

- Own end-to-end QA for 6+ concurrent client projects across telecom, e-commerce, ticketing, booking and SaaS platforms.
- Design and execute functional, regression, smoke, cross-browser and responsive test cases, maintaining traceability from requirement to defect closure.
- Build and maintain automated end-to-end suites in Playwright (JavaScript) using the Page Object Model, replacing repetitive manual regression cycles.
- Validate APIs in Postman — request/response structures, status codes, authentication and edge cases — against UI behavior.
- Act as QA focal point: plan test schedules, prioritize fixes with developers and report release readiness to clients.
- Built a reusable QA Toolkit (Excel) for bug tracking and test case management, now the team standard for onboarding juniors.

KEY PROJECTS

Airtel BD — Telecom Customer Web Portal

2023 – 2025

- QA and maintenance testing for a leading telecom operator's customer portal — login/OTP, account management and billing.
- Ran release regression, post-deployment verification and scheduled health checks across desktop and mobile, including bilingual (English/Bangla) content.

HibaChef — Hibachi-at-Home Booking Platform

2025 – Present

- Own QA for a US-based private-chef booking platform, covering the multi-step booking funnel from location and menu selection through pricing and confirmation.
- Validate form states, CMS content, SEO metadata and GTM analytics events across browsers and devices.

LetsVibe BD — Art, Music & Lifestyle Ticketing Platform

2025 – 2026

- Tested authentication, ticket booking and payment-path flows, including negative and edge-case scenarios.
- Built an automated login suite in Playwright with the Page Object Model covering 13+ positive, negative and edge cases.

Smart-Lab Global (SLG) — Multi-Layer SaaS Platform

2024 – 2025

- Coordinated QA across frontend web, mobile and backend API layers using separate test case ID schemes for cross-layer traceability, validating Postman responses against UI behavior.

Laxfo Electronics • DBL Ceramics — Product Catalogue Websites

2023 – Present

- Ongoing maintenance QA for two bilingual catalogue sites — listings, filters, lumen calculator and CMS updates — plus a UI/UX analysis that led to a CMS revamp proposal.

TECHNICAL SKILLS

Core QA	Requirement analysis, test case design, functional & regression testing, API testing, defect management, UAT
Testing Tools	Playwright, Postman, Chrome DevTools, BrowserStack, Hotjar
Tech Stack	JavaScript, HTML5, CSS3, React, Next.js, Node.js
